DEPARTMENT OF BIOTECHNOLOGY

Report on the Field project 2020-2021

The department of Biotechnology offers Environmental studies as ability enhancement compulsory course (AECC) for the second year undergraduate students to sensitize them to the environment as a part of their curriculum. The course is taught to the students through lectures, class activities and field project. Since, 2020-2021 was a pandemic affected academic year, students were unable to involve themselves in any of the field project for Environmental studies. Instead students were assigned online class activities and other virtual resources available for the internal assessment of the course.

Students actively participated in the online class activity conducted during the instructional hours of the course. Students made **e-posters** and **power point slides** and presented them in the following topics such as Rain water harvesting, Water shed management, Ecocentrism, Global warming and Green house gases, Ozone depletion, Nuclear Accidents and Holocaust, Wildlife protection act and Urban effects of environment and Climate. Students gained knowledge on the environment related issues and its sustainability by the class activity.

Students were also assigned to make a project report and submit by making using of the online resources available. Students made a project report based on the “**Values of Biodiversity**” by studying the habit and habitat of the various living forms on the Earth such as birds or insects or plants in their surrounding living areas. They learnt the utilitarian values and the ecological construction that has been prevailing for the sustainability of the environment. Students acquired knowledge on the ecological niche and also the medicinal values of the species.

DWARAKA DOSS GOVERDHAN DOSS VAISHNAV COLLEGE. RAIN WATER HARVESTING.

BHARGAVI J – 19E2524 / II BIOTECH.

Rainwater harvesting (RWH) is the collection and storage of rain, rather than allowing it to run off. Rainwater is collected from a roof-like surface and redirected to a tank, cistern, deep pit (well, shaft, or borehole), aquifer, or a reservoir with percolation. Dew and fog can also be collected with nets or other tools. Its uses include watering gardens, livestock, irrigation, domestic use with proper treatment, and domestic heating. The harvested water can also be committed to longer-term storage or groundwater recharge.

Small-scale rainwater harvesting systems and uses

GLOBAL WARMING AND GREEN HOUSE GASES

THE GREENHOUSE EFFECT

Some solar radiation is reflected by Earth and the atmosphere. Some of the infrared radiation passes through the atmosphere. Some is absorbed by greenhouse gases and re-emitted in all directions by the atmosphere. The effect of this is to warm Earth's surface and the lower atmosphere.

Some radiation is absorbed by Earth's surface and warms it. Infrared radiation is emitted by Earth's surface.

STOP GLOBAL WARMING!

CAUSES :-

- Raised in global temperature
- Melting of ice glaciers
- Cyclones and Natural calamities

REASON :-

- Release of toxic harmful gases by factories
- Deforestation and Natural fire
- Emission of harmful gases and excess CO₂ in air
- Emission of CFC into the air

SOLUTION :-

- Afforestation
- Reduce in usage of CFC products
- Switch on to electronic vehicles

Factors Causing Global Warming

Natural Causes:-

- Greenhouse effect
- Natural calamities
- Slow tilting of Earth's axis

Anthropogenic Causes:-

- Respiration
- Mining activities
- Rapid industrialization
- Increased automobile use

THE WILDLIFE PROTECTION ACT-1972

J.YUVASHREE---19E2521

The main object of the Act is to provide protection to the wild animals birds and plants. The Act empowers the Central Govt. to declare certain areas as Sanctuaries or National Parks. The Act prohibits hunting of wild animals; birds etc. and impose punishment for violating the same.

Hunting (Section 9)—This section describes what constitutes hunting and the intent to hunt. Hunting wild animals is prohibited.

Ownership (Section 40 & 42).

Regarding ownership issues and trade licences. Ownership will be not transferred to another party also regarding issues to trade licence. The certificate of ownership will be provided by the chief wild life warden.

Penalties (Section 53)—Penalties are

prescribed in section 51. Enforcement can be performed by agencies such as the Forest Department, the Wildlife Crime Control Bureau (WCCB), the Customs and the Central Bureau of Investigation (CBI). Chargesheets can be filed directly by the Forest Department. Other enforcement agencies, often due to the lack of technical expertise, hand over cases to the Forest Department.

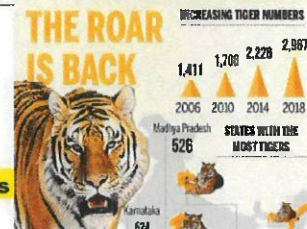

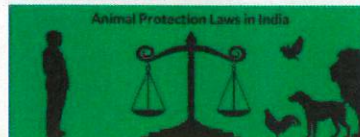

BIHAR | Wanted nilgai and wild boar to be declared vermin in several parts of the state for five years
REASON | The govt has been distributing 480-50 lakh as compensation for crop loss every year
STATUS | Notified

UTTARAKHAND | Wanted wild boar declared vermin, primarily in the hill districts, for a year
REASON | Crop loss, farmers are migrating because of it
STATUS | Notified

HIMACHAL PRADESH | Wanted rhesus macaques/mongrels to be declared vermin, with permission to cull them in parts of Chamba, Kangra, Una, Bilaspur, Shimla, Sirmour, Kullu, Hamirpur, Solan and Mandi
REASON | 674 reported attacks on humans by monkeys; relief of ₹28 lakh has been disbursed from the state exchequer
STATUS | Notified

GUJARAT | Wants nilgai to be declared vermin for a year
REASON | Population of nilgai increased from 41,644 in 1995 to 1,46,778 in 2015
STATUS | Under consideration

MAMARASKHTRA | Wants nilgai and wild boar declared vermin for a year
STATUS | Both the blue bull and wild boar have been declared wild under Schedule III of The Indian Wildlife (Protection) Act, 1972. MPPCC had issued an advisory in 2014 to states saying problem animals could be put in Schedule V of WPA so that their killing is out of the purview of regulations

"The greatness of a nation and its moral progress can be judged by the way its animals are treated."
