Solar Energy

Our institution constantly strives to conduct its energy operations with utmost environmental consciousness and sustainability by power generation through solar panels. The college has installed solar panels to generate electricity for the boy's hostel geyser, street lights, library and main block power consumption. During the academic year 2020-2021 the total power consumed was 470898 units and power generated solar through power plant was 54667 units respectively and the percentage of renewable energy source was 11.61 %.
